# 1998 Uniform Crime Report

## FOREWORD

---

This constitutes the 40th Crime in Michigan annual report prepared by the Uniform Crime Reporting Program pursuant to PA 319 of 1968, as amended.

The Department of State Police appreciates the cooperation and support of all the police departments, sheriffs' offices, and specialized law enforcement agencies that provide offense and arrest data for this report. Statewide in 1998, 80% of all of the law enforcement agencies submitted complete data, which is a major improvement from 1997. Congratulations to the 116 agencies who increased their reporting this year.

Col. Michael D. Robinson  
Director

In past years, all Uniform Crime Reporting data has been published as raw figures. However, in this year's report, due to the fluctuations in the number of agencies reporting during 1997 and 1998, the one-year trends have been calculated comparing only those agencies that reported complete data for both years. This comparison is comprised of 359 agencies and represents a more accurate picture of crime in Michigan. Raw figures are used for the five and ten year trends and data published for individual agencies.

This report, when analyzed, can significantly contribute to management and planning activities at local, state, and federal levels, especially by state officials, the law enforcement community, the Legislature, and nonprofit organizations.

### Internet:

Full text of this report and additional data are available on the internet at [www.state.mi.us/msp/cjic/ucr](http://www.state.mi.us/msp/cjic/ucr).

The first section, [Search Uniform Crime Report Interactive Tables](#), provides offense and arrest data searchable by county, jurisdiction, crime type, and age, race, and sex of arrestee. The first choice in this section, [Search](#), allows the user to type in specific keywords to obtain data on a particular agency. Use [Search](#) if you only want information from one particular reporting agency. The second choice in this section, [State Totals](#), provides state total offense or arrest information for a specific year. The third choice in this section, [County/Jurisdiction Totals](#), provides county total offense or arrest information for a specific year. Within each county, specific jurisdictions can also be specified. The fourth choice, [Arrest Totals](#), provides state total arrest information by crime type and by age, race and sex of the arrestees. The

fifth choice, [Arrests](#), provides all the arrest information broken down by county. Within each county, specific jurisdictions can also be specified.

The second section, Table of Contents, provides the same information that is found in this written report for both 1997 and 1998.

## DATA ANALYSIS/ TRENDS

### 1998/ 1997 Trends

#### Matched Comparison:

In past years, Uniform Crime Report data has been reported as raw figures. The level of participation from reporting agencies has been generally stable, so fluctuations in numbers have been indicative of actual changes in crime. However, in recent years, Michigan law enforcement agencies have been transitioning to a new reporting system, Michigan Incident Crime Reporting (MICR). During the transition, numerous agencies have struggled to maintain their participation with the statewide program. In addition, problems with Y2K programming have already surfaced, and are expected to present further difficulties for the next several years. To provide a more accurate picture of statewide trends, comparisons between 1998 and 1997 are being calculated by using only the 359 agencies that reported entire year data in both years. Trends are not calculated using all reported figures because the reporting fluctuations between 1998 and 1997 create misleading results. All other data reported in this publication indicates all actual reported figures. The 359 agencies used in the comparison cover a large proportion of reporting agencies, representing 79 of the 83 counties and 83% of the state population. The 359 agencies include the Michigan State Police and agencies that range in size from a population coverage of 328 to 1,027,974. A list of these agencies can be found in Appendix E.

A comparison of 359 agencies that reported entire year data both in 1998 and 1997 indicates:

Total Crime increased	1%
Index Crime decreased	-1%
Violent Crime (murder, rape, aggravated assault, robbery) increased	7%
Property Crime (burglary, larceny, motor vehicle theft) decreased	-2%
Murder decreased	-6%
Rape increased	5%
Robbery increased	3%

Aggravated Assault increased	10%
Burglary increased	7%
Larceny decreased	-3%
Motor Vehicle Theft decreased	-8%
Arson decreased	-8%

### Five and Ten Year Trends

Five and ten year trends can still be calculated using all reported figures, because the level of reporting participation for 1998 is similar to that in 1994 and 1989:

**1998 Total Crime Rate = 12,277 per 100,000 or one crime per 8 Michigan residents**

**Total Crime decreased -5% in the last five years and -6% in the last ten years**

**1998 Index Crime Rate = 4,909 per 100,000 or one index crime per 20 Michigan residents**

**Index Crime decreased -8% in the last five years and -16% in the last ten years**

**1998 Violent Crime Rate = 659 per 100,000 or one violent crime per 152 Michigan residents**  
**Violent Crime decreased –14% in the last five years and –5% in the last ten years**

**1998 Property Crime Rate = 4,197 per 100,000 or one property crime per 24 Michigan residents**  
**Property Crimes decreased –7% in the last five years and –17% in the last ten years**

**1998 Murder Rate = 8 per 100,000 or one crime per 12,982 Michigan residents**  
**Murder decreased –21% in the last five years and –27% in the last ten years**

**1998 Rape Rate = 57 per 100,000 or one crime per 1,761 Michigan residents**  
**Rape decreased –18% in the last five years and –18% in the last ten years**

**1998 Robbery Rate = 163 per 100,000 or one crime per 612 Michigan residents**  
**Robbery decreased –29% in the last five years and –25% in the last ten years**

**1998 Aggravated Assault Rate = 431 per 100,000 or one crime per 232 Michigan residents**  
**Aggravated Assault decreased -6% in the last five years and increased +9% in the last ten years**

**1998 Burglary Rate = 874 per 100,000 or one crime per 114 Michigan residents**  
**Burglary decreased -8% in the last five years and -27% in the last ten years**

**1998 Larceny Rate = 2,707 per 100,000 or one crime per 37 Michigan residents**  
**Larceny decreased -8% in the last five years and -15% in the last ten years**

**1998 Motor Vehicle Theft Rate = 616 per 100,000 or one crime per 162 Michigan residents**  
**Motor Vehicle Theft decreased -5% in the last five years and -12% in the last ten years**

**1998 Arson Rate = 54 per 100,000 or one crime per 1,863 Michigan residents**  
**Arson increased +17% in the last five years and +9% in the last ten years**

**ZERO POPULATION** - Population can only be shown once. Police departments showing a zero population indicate that those areas are being serviced by the county sheriff or MSP. Colleges, universities, metro parks, airports, and Provost Marshal-Camp Grayling have no permanent residents and will also show a zero population. Michigan State Police has jurisdiction over the entire state and will show a zero population because either the sheriff or local police department already show the population.

# 1998 Uniform Crime Report

## Appendix B

---

## PUBLIC ACT 319 of 1968, (as amended)

### **28.251 Uniform crime reports; duties of police departments to file; contents.**

Sec. 1. The police department of each city or village, any duly constituted police department of a township, and the sheriff's department of each county, once each month upon a date and form prescribed and furnished by the director of the department of state police, shall forward to the department of state police a crime report. Each reporting department shall report only on cases within its jurisdiction and upon which it is making, or has made, the primary police investigation. The report shall be called the uniform crime report and shall cover crimes reported and otherwise processed during the month preceding the month of the report. It shall contain the number and nature of offenses committed, the disposition of such offenses and such other information as the director of state police shall specify relating to the method, frequency, cause and prevention of crime. Under no circumstances shall the name of any person be reported.

### **28.252 Compilation of monthly uniform crime reports; use.**

Sec. 2. Upon receipt of the monthly uniform crime reports from the reporting agencies, the department of state police shall prepare a statewide compilation of the statistics contained therein and the resulting statistical compilation shall be available to any governmental law enforcement agency in the state, the judiciary committees of the Michigan state senate and the Michigan state house of representatives, and the federal bureau of investigation, upon request. The statistics made available through the uniform crime report shall be used for the purpose of studying the causes, trends and effects of crime in this state and for intelligence upon which to base a more sound program of crime detection and prevention and the apprehension of criminals.

### **28.253 Voluntary crime reports; inclusion in compilation.**

Sec. 3. Any governmental police agency, not falling within the description of those required to submit the monthly uniform crime report set forth in section 1, which desires to submit such a report, shall be furnished with the proper forms by the department of state police. When a report is received by the department of state police from a governmental police agency not required to make such report, the information contained therein shall be included within the monthly compilation provided for in section 2.

### **28.254 Reports of wanted persons and stolen vehicles.**

Sec. 4. The chief of police of each city or village and of each township having a police department, and the sheriff of each county within this state, shall report to the department of state police, in a manner prescribed by the department, all persons wanted by, and all vehicles stolen from, their primary police jurisdictions. The report shall be made as soon as is practical after the investigating department either ascertains that a vehicle is stolen or obtains a warrant for an individual's arrest or determines that they

have reasonable grounds to believe that the individual committed a crime. In no case shall this time exceed 12 hours after the reporting agency determines that it has grounds to believe that a vehicle was stolen or that the wanted person should be arrested.

### **28.255 Reports of apprehension or recovery.**

Sec. 5. When at any time after making a report required by section 4 it is determined by the reporting agency that a person is no longer wanted because of his apprehension, or any other factor, and when a vehicle reported stolen under section 4 is recovered, the chief of police or sheriff of the reporting agency shall immediately notify the department of state police in a manner prescribed by the department.

### **28.256 Inapplicability of act as to traffic misdemeanor.**

Sec. 6. The provisions of this act do not apply to misdemeanor traffic cases or to persons wanted for misdemeanor traffic offenses, or for the violation of any city, village or township ordinance. The provisions of this act shall not be construed to in any way affect existing or future laws and procedures governing the reporting of persons wanted for traffic law violations or for the violation of city, village or township ordinances. History: 1968, Act 319, Imd. Eff. 7/3/68.

### **28.257 Crimes of domestic assault; report to state police; contents.**

Sec. 7. The chief of police of each city or village, the chief of police of each township having a police department, and the sheriff of each county within this state shall report to the department of state police, in a manner prescribed by the department, the following information related to crimes of domestic assault:

- a. The number of assaults reported which involve an adult and a minor and the disposition of those offenses.
- b. The number of assaults reported which involve 2 male adults or 2 female adults and the disposition of those offenses.
- c. The number of assaults reported which involve 1 male adult and 1 female adult and the disposition of those offenses.
- d. The number of assaults reported which involve a person and his or her spouse and the disposition of those offenses.
- e. Other statistics the director of the department of state police considers necessary to obtain accurate and reliable data on the incidence of domestic assault in this state.

History: Add. 1978, Act 319, Imd. Eff. 7/10/78

### **28.257a Crimes motivated by prejudice or bias; report.**

Sec. 7a. The chief of police of each city or village, the chief of police of each township having a police department, and the sheriff of each county within this state shall report to the department of state police, in a manner prescribed by the department, information specified under section 1 related to crimes motivated by prejudice or bias based upon race, ethnic origin, religion, gender, or sexual orientation.

History: Add. 1991, Act 172, Eff. 3/30/92.

## **Sec. 8. DOES NOT APPLY TO UCR.**

### Data Use

#### **REPORTING DATES**

Data in this report includes all reported 1998 information as of January 31, 1999 for UCR and IRS agencies and as of May 28, 1999 for MICR agencies.

#### **MICHIGAN LAW ENFORCEMENT AGENCIES**

Total # of Agencies: 600

- Agency Type:
  - City & Village Police Departments = 390
  - Sheriff = 83
  - Michigan State Police = 1
  - Township = 102
  - Special (University, Airports) = 24
- Reporting System:
  - MICR = 520
  - UCR = 41
  - IRS = 13
  - Report through another agency = 21
  - Nonreporting = 5

#### **PROPER USE OF DATA**

Users should note the following factors when analyzing changes in the volume and types of crimes: missing data, population density, urbanization, composition of the population, stability of the population, modes of transportation, economic conditions, cultural characteristics, family cohesiveness, climate, strength and policies of the criminal justice system, and crime reporting practices of the citizenry. When used properly, the data provided in this report can significantly contribute to management and planning activities at local, state, and federal levels, especially by state officials, law enforcement agencies, the legislature, and nonprofit organizations. Questions on the proper use of UCR statistics can be directed to the Crime Analysis Unit or the Uniform Crime Reporting Section of the Central Records Division (contact information provided on page 1).

## **HATE CRIME STATISTICS**

A Hate Crime or Bias Crime is a criminal offense committed against a person or property which is motivated, in whole or in part, by the offender's bias against a race, religion, ethnic/national origin, sexual orientation or disability group. Hate Crimes are not separate, distinct crimes, but rather traditional offenses motivated by the offender's bias. The Hate Crime statistics reported to the Michigan Uniform Crime Reporting program may have some reporting inconsistencies. The decision to classify an offense as a hate crime is left to the discretion of the responding law enforcement officer. It is believed that different interpretations of this definition have lead to overreporting by some agencies and underreporting by others. For this reason, Hate Crime statistics should be used cautiously. In addition, the Other Bias category appears to be misunderstood by many reporting agencies. Consequently, all incidents reported as Other Bias have been removed.

**DIFFERENCE BETWEEN MICHIGAN & FBI FIGURES** The Michigan UCR statistics may be different than the numbers reported in the FBI UCR. These differences exist because the FBI estimates missing data by assigning the same proportional crime volumes to partial and non-reporting local agencies. The size of the agency, type of jurisdiction, and geographic locations are considered in the estimation process. Crime in Michigan does not estimate. It is the tabulation of agencies' actual reported crime. Michigan crime rates are figured by total population (non- reporting or partial reporting jurisdictions' populations are included).

**MICR STATUS** Michigan Incident Crime Reporting (MICR) is Michigan's incident-based reporting system in which data are collected on each single crime occurrence. MICR provides data to the FBI through NIBRS. The National Incident Based Reporting System (NIBRS) is the result of efforts by the FBI and various law enforcement organizations to improve and modernize the Uniform Crime Reporting program. The implementation of MICR is still progressing throughout Michigan. The majority of Michigan law enforcement agencies are now reporting through the new Michigan Incident Crime Reporting (MICR) system. In 1998, 81% of agencies, representing 65% of the population, submitted data through MICR. Additional information on the MICR program can be obtained by contacting the UCR Section (see contact information on page 1).

**MICR CONVERSION** In order to make reporting from all sources consistent MICR data must be converted back to the traditional UCR format. The MICR database was constructed to allow for such a conversion so that UCR's long- running trend analysis could continue. All data shown in this report is in UCR summary format. Once all agencies in Michigan are reporting through MICR the statewide data will be available in incident-based format.
